

# NOSPARO

## SAFETY LOCK FOR SHOTGUN

The **NOSPARO** lock strengthens the obligations prescribed by the Italian law 110/75 art 20 and 20 bis with regard to the safety of the weapon and people.

**NOSPARO** increases the owner's and holder's weapon **diligence**: he is responsible not only for the custody, but also for the **precautions** he must take to avoid theft and to protect its loved ones, in case of their use without consent. **NOSPARO** protects the gunshop owner and the exhibitor during fairs: as long as the lock is inserted in, the weapon cannot fire, avoiding accidents, in the interest of **public safety**.

Safety, ease of use, functionality and handling are the strengths of **NOSPARO**. The added values are: increased diligence of the owner, secured weapon and protection of people.

**NOSPARO** safety lock for shotgun is a product from **PREFER**, a leading company in the market of locks since 1941.

## FEATURES

**NOSPARO** is the new safety lock for 12/16/20/28 gauge shotgun. It is equipped with a pair of flat keys with more than 15,000 different combinations and it has 3 carbonitrided balls underneath the key entrance, to protect it from drilling.

**NOSPARO** can be inserted into the traditional cartridge, on all 12/16/20/28 gauge shotguns.

**NOSPARO** is a cartridge coated by a thermoformed rubber sheath for the barrel internal protection and to ensure maximum friction against forced extraction by burglary.

**NOSPARO** is a closing/ opening expansion system that works with a special pliers, operated only through the key.

**NOSPARO** is equipped with a key with an extra long neck, so as not to interfere with other parts of the weapon. The same key allows the opening of both locks, when sold in pairs.

**NOSPARO** has a very wide key handle to ensure maximum clamping force.

**NOSPARO** is resistant to oils and lubricants used to clean the weapon.

**NOSPARO** has been subjected to static and dynamic tests by the BANCO NAZIONALE DI PROVA for portable firearms and commercial ammunition.

NOSPARO	AxB	BURST CHAMBER
C12M	Ø20 x 70 mm	L ≥ 70 mm
